Economic Geology
Vol. 63, 1968, pp. 991–1006

INDEX TO VOLUME 63

A horizon in soil surveys, The (discussion), 572
Absolute age, dates:
  basement rocks, lead models, Utah, 796
  igneous rocks, kimberlite, 504
  igneous rocks, Rb/Sr, 731
  ore deposits, British Columbia, Craigmont, Rb/Sr, 702
  ore deposits, Peru, porphyry copper, 166
  ore deposits, porphyry copper, Arizona, K-Ar, 30
  ore deposits, Utah, Bingham, 612
  pyroclastics, Chile, K-Ar, 698
Abstracts of papers, Society of Economic Geologists, Mexico City, Nov 12–13, 1968—
  Application of geology in development and exploitation of the Naica and Fresnillo mines, Mexico (Villaseñor), 701–702
  Chemical composition of the hydrothermal fluids responsible for the lead-zinc deposits at Providencia, Zacatecas, Mexico (Rye and Haffty), 704
  Control of oxygen fugacity during ore deposition in some pyrometasomatic zinc deposits (Burt), 702
  Environment of deposition of the hydrothermal metamorphic (pyrometasomatic) deposits (Titley), 699
  Extrusive iron oxide deposits, "El Laco," Chile, The (Rogers), 700
  Genesis of stratiform base metal sulfide ores of volcanic affinity in Japan: Kuroko deposits (Clark), 698
  Geochemical ore guides at Charcas unit, San Luis Potosi, Mexico (Gómez, Pickard, and Coolbaugh), 703
  Geology of La Negra mineral deposit, State of Queretaro, Mexico (Mejorada), 702
  Geology of the Cerro Nahuatl iron ore deposits, Colima, Mexico (Neilson), 701
  Guides for the interpretation of barren and weak surface expression of buried orebodies in the Pachuca-Real del Monte district, Mexico (Geyne), 702
  Hydrothermal feldspar dikes in the framework of the Tayoltita silver-gold orebodies (Randall), 701
  Hydrothermal transport and deposition of gold (Helgeson and Garrels), 703
  Mantle convection and a unified theory of magmatism, metasomatism and ore mineral belts (Keith), 704
  Metallogenetic provinces of Mexico (Wilson), 700
  Microscopic and microprobe study of sulfide minerals in Red Sea mud samples (Stephens and Wittkopp), 704
  Ores of the Bluebell mine, British Columbia: a product of meteoric water?, The (Ohmoto and Rye), 699
  Origin of metal sulfides in Red Sea geothermal sediments (Kaplan, Sweeney, and Nissenbaum), 704
  Petrologic aspects of a molybdenum-bearing alkalic stock, Sierra Blanca, southcentral New Mexico (Giles and Thompson), 699
  Potassic alteration in porphyry copper deposits (Guilbert and Lowell), 703
  Rb/Sr, S, and O isotopic analyses indicating source and date of the pyrometasomatic copper deposits at Craigmont, British Columbia (Chrismas, Baadsgaard, Folinsbee, Fritz, Krouse, and Sasaki), 702–703
  Silver deposits in the Cobalt-Gowganda area in Ontario, Canada, The (Petruk), 699–700
  Sulfur deposits of Mexico (Salas and Folk), 700
  Sulfur vapor pressure of pyrite-pyrrhotite (Giletti, Yund, and Lin), 702
  Tectonic and geomorphic environment of supergene mineral alteration, Copiapó mining district, Chile (Clark, Mortimer, and Sillitoe), 698
  Zoning and oxidation in the Mapimi mining district, Durango, Mexico (Hoffmann), 701
Abstracts of papers, Society of Economic Geologists, New York, Feb. 26–29, 1968—
  Applied geochemistry in exploration for selected mineral occurrences in the Philippines (Hale and Govett), 87
  Barite deposits in East Northumberland Canyon, Nye County, Nevada (Shawe, Poole, and Brobst), 89
  Discovery and exploration of the Kalamazoo orebody, San Manuel district, Arizona (Lowell), 90
  Economic geology research (Mitcham), 88
  Geochemical anomalies near Gold Acres and Tenabo, Lander County, north central Nevada (Wrucke and Armbrustmacher), 88
  Geology and mineralogy of the Cortez gold prospect, Nevada (Wells, Stoiser, and Erickson), 89
  Metallotects of North America (Guild), 90
  Ore Deposits at Copper Canyon and Copper Basin, Lander County, Nevada (Sayers, Tippett, and Fields), 90–91
  Origin of Vermont copper ores and its bearing on exploration (Jenks), 89
  Preliminary report on the geology of the molybdenite deposits at Red Mountain, Daly mining district, Colorado (Wallace, MacKenzie, and Blair), 87–88
  Spatial relation of mineral deposits to Tertiary volcanic centers in Nevada (Albers and Kleinhampl), 89–90
  Suggestions for increasing metalliferous ore discoveries by more effective use of exploration techniques and other considerations (Cook), 90
  Thirty-eighth parallel lineament and its relationship to ore deposits, The (Heyl), 88
  Uranium deposits in the Jackpile Sandstone, New Mexico (Nash and Kerr), 88–89
Addie, George, *A new true thickness formula based on the apparent dip*, 188
Africa:
  geomorphology, stream features, placers, 845
Age of radioactive mineralization of placer deposits of Kerala (Travancore), India, The (Ganguli and Kaul), 838–840
Ajo, Arizona:
  Cornelia pluton, petrology, 101
Akademik K. I. Satpaev (review), 92
Akita, Japan:
  metals, Kuroko deposit, 698
Albers, J. P., and Kleinhampl, F. J., abstract by, 89
Alberta:
  zinc, lead, Rocky Mountains, 349
Alexandrov, E. A., review by, 197–200, 575–578, 578–582, 705–708, 850–854, 980–983; review of book translated by, 435
Algae:
  Precambrian, Zambia, Roan Group, 207
Algal biostrome fringe and associated mineralization at Mufulira, Zambia, An (Paltridge), 207–216, 988
Anatomy of the Western Phosphate Field (review), 202
Anderson, A. T., with Desborough, G. A., and Wright, T. L., *Mineralogy of sulfides from certain Hawaiian basalts*, 636–644
Anfilogov, V. N., with Chernyshev, L. V., discussion by, 841–844
Appalachian tectonics (review), 94
Application of a selective simulation and sampling technique to the interpretation of stream sediment copper anomalies near South Mountain, Pennsylvania (Dahlberg), 409–417
Applied ore microscopy (review), 200
Argentina:
  petrology, pegmatite, 13
Arizona:
  absolute age, porphyry copper deposits, 30
  copper, Ajo, 101
  copper, Bisbee, 1
  copper, hydrothermal alteration, 703
  copper, San Manuel, 90, 645
  copper, skarn deposits, 699

petrology, Ajo, Cornelia pluton, 101
petrology, breccia dike, 859
porphyry copper, 30
Armbrustmacher, T. J., with Wrucke, C. T., abstract by, 88
Arsenic:
Ontario, Cobalt, Gowganda, 699
Ontario, Cobalt district, 512
Sweden, Boliden, 472
Asbestos:
India, Andhra Pradesh, 971
Associations:
fluid-inclusion research, COFFI, founding, 835

Baadsgaard, H., with Chrismas, L., Folinsbee, R. E., Fritz, P., Krouse, H. R., and Sasaki, A., abstract by, 702
Bachinski, D. J., with Dasch, E. J., and Petrović, R., books received by, 94, 203, 298, 436, 582, 709, 855, 984
Bancroft, Ontario:
geochemical prospecting, radon, 288
Barakso, J. J., discussion of paper by, 85; reply to discussion of paper by, 572, 695
Barite:
Mississippi Valley, structure, 88
Nevada, Nye County, 89
ore deposits, general, United States, central, 585
Behre, C. H., Jr., review by, 850
Belgium:
Moresnet, fluid inclusions, 451
Benson Mines, New York:
iron, 151
titanium, geochemistry, 151
Berry, L. G., with Mason, Brian, review of book by, 435
Beryl:
Wyoming, Wind River Mountains, 595
Bilibin, Y. A., review of book by, 435
Bingham, Utah:
isotope chronology, 612
Biogeochemical prospecting:
soil sampling, humus, A horizon, 423
Bisbee, Arizona:
intrusive breccias, 1
Blair, R. G., with Wallace, S. R., and MacKenzie, W. B., abstract by, 87
Bloom, Harold, discussion by, 85; reply to discussion by, 572, 695
Boliden, Sweden:
wall-rock alteration, mineral zoning, 472
Boorman, R. S., discussion of paper by, 841–844
Borax solution at Kramer, California (Smith), 877–883
Boron:
California, exploration, 877
Botbol, J. M., with Nackowski, M. P., and Mardirosian, C. A., discussion of paper by, 423
Bowie, S. H. U., discussion by, 85–86; reply to discussion by, 847
Boyle, R. W., *Fahlbands, sulfide schists, and ore deposition*, 835–838
Boyle, R. W., and Dass, A. S., reply to discussion of paper by, 423, 572
Boyle, R. W., and Lynch, J. J., *Speculations on the source of zinc, cadmium, lead, copper and sulfur in Mississippi Valley and similar types of lead-zinc deposits*, 421–422
Braunstein, Jules, and O'Brien, G. D., review of book edited by, 435
Brazil:
gold, Jacobina, 271
Breccia:
dissolution, terminology, 692
intrusive, Colorado, 87
intrusive, dikes, vents, gaseous explosions, 859
intrusive, hydrothermal, Arizona, 1
intrusive, pipe, Queensland, ore, 292, 295
Breccia pipe associated with epigenetic mineralization, Mount Morgan, Queensland—a reply (discussion), 295
Breccia pipe mineralization at Mount Morgan—a reply (discussion), 292–293
Brecke, E. A., discussion by, 294
Brines:
geochemistry, Mississippi Valley, 935
Northwest Territories, properties, Pine Point, 439
Red Sea, isotopes, sulfur, 704
British Columbia:
geochemistry, Bluebell mine, fluid inclusions, 699
geochemistry, copper, native, Vancouver, 961
geochemistry, Craigmont, isotopes, 702
zinc, lead, eastern Rockies, 349
Brobst, D. A., with Shawe, D. R., and Poole, F. G., abstract by, 89
Broken Hill, New South Wales:
sulfur isotopes, galena and sphalerite, 574
Brown, G. M., with Wager, L. R., review of book by, 297–298
Bryant, D. G., *Intrusive breccias associated with ore, Warren (Bisbee) mining district, Arizona*, 1–12
Bryner, Leonid, discussion by, 294
Bryner, Leonid, *Proposed terminology for hydrothermal breccias and conglomerates*, 692
Buday, Tibor, with Mahel, Michal, review of book edited by, 709
Burt, D. M., abstract by, 702
Butte, Montana:
isotopes, 884

Cabri, L. J., discussion of paper by, 694
Cadmium:
geochemistry, biologic concentration, 421
Calaverite at Vatukoula, Fiji (discussion), 694–695
Calculation of chemical composition of composite samples of coal from maceral composition (Chatterjee, Chandra, and Ghosh), 80–83
California:
boron, Kramer, 877
geochemistry, Wilbur Springs, mercury, 169
geochemistry, Wilbur Springs, mercury, gold, 573
Cambel, B., and Jarkovsky, Jan, review of book by, 435
Campbell, F. A., and Williams, K. L., *Composition of sphalerite from Quemont mine, Quebec*, 824–831
Campbell, F. A., with Evans, T. L., and Krouse, H. R., *A reconnaissance study of some western Canadian lead-zinc deposits*, 349–359
Canada:
metals, fahlbands, sulfide schists, 835
Carbon:
geochemistry, diamonds, genesis, 495
isotopes, ratios, British Columbia 702
isotopes, ratios, fluid inclusions, 232
Chakrabarti, A. K., reply to discussion by, 425
Chandra, D., with Chatterjee, N. N., and Ghosh, T. K., *Calculation of chemical composition of composite samples of coal from maceral composition*, 80–83
Chao, T. T., with Jenne, E. A., and Heppting, L. M., *Use of mercurous chloride to recover trace amounts of gold from waters*, 420–421
Chatterjee, N. N., Chandra, D., and Ghosh, T. K., *Calculation of chemical composition of composite samples of coal from maceral composition*, 80–83
Chemical analysis:
paper chromatography, uranium, 76
reflectometry, gold, fineness, 688
tracer technique, sulfur, partial pressure, 702
wet, gold, mercurous chloride, 420
wet, molybdenum, 291
wet, molybdenum, field kit, 85, 572, 695
Cheney, E. S., and Patton, T. C., discussion of paper by, 86, 191, 844
Chernyshev, L. V., and Anfilogov, V. N., discussion by, 841–844
Chernyshev, V. F., with Safanov, Yu. G., *Structural factors in metasomatism related to endogenic mineral deposits of Middle Asia and the Urals*, 822–823

Chile:
copper, Copiapó, 698
geomorphology, Copiapó, erosion surfaces, 698
iron, El Laco, 700
Chilingar, G. V., with Larsen, G., review of book edited by, 297
Chrismas, L., Baadsgaard, H., Folinsbee, R. E., Fritz, P., Krouse, H. R., and Sasaki, A., abstract by, 702
Chromium:
geochemistry, magnetite, contents, 193
Chronology of intrusion, volcanism, and ore deposition at Bingham, Utah (Moore, Lanphere, and Obradovich), 612–621
Clark, A. M., Mortimer, Cedric, and Sillitoe, R. H., abstract by, 698
Clark, K. F., *Structural controls in the Red River district, New Mexico*, 553–566
Clark, L. A., abstract by, 698
Clark, T. H., review of book edited by, 94
Clay—in engineering geology (review), 984
Clay mineralogy:
areal studies, Arizona, breccia dike, 859
areal studies, Nevada, adsorption, copper, 401
areal studies, New Mexico, Laguna district, 737
areal studies, New Mexico, paragenesis, 37
Clement, S. C., correction to article by, 714
Clement, S. C., *Supergene copper concentration in altered plagioclase feldspar, Copper Canyon, Nevada*, 401–408
Coal:
India, reflectivity, experimental studies, 182
properties, volatile content, analysis, 80
Coal mining geology (review), 94
Coast to coast tectonic study of the United States, A (review), 582
Cobalt:
India, Mosaboni mine, 156
Ontario, Cobalt, Gowganda, 699
Ontario, Cobalt district, 512
Cobalt, Ontario:
silver, 699
Silverfields deposit, 512
Collins, L. G., discussion by, 193
Colorado:
geochemistry, strontium, isotope ratios, 731
Gilman, fluid inclusions, 451
metals, Leadville, Gilman, 699
mineralogy, silver sulfosalts, 289
molybdenum, Red Mountain, Urad, 87
Composition of sphalerite from Quemont mine, Quebec (Campbell and Williams), 824–831
Congo:
kimberlite, 504
Contact-localized ore formation at the Memé mine, Haiti Kesler), 541–552
Continental drift:
crustal structure, Red Sea area, 572, 978
Cook, D. R., abstract by, 90
Coolbaugh, D. F., with Gómez, Manuel, and Pickard, G. W., abstract by, 703
Cooray, P. G., review of book by, 983
Copper:
Arizona, Ajo, Cornelia pluton, 101
Arizona, Bisbee, 1
Arizona, Garnet Ridge, breccia dike, 859
Arizona, San Manuel, faulted segment, 90, 645
Chile, Copiapó, 698
exploration, geochemical prospecting, 409
exploration, hydrothermal alteration, zoning, 703
exploration, unconformities, porphyry copper, 30
geochemistry, biologic concentration, 421
geochemistry, carbonate replacement deposits, 699
geochemistry, native, lavas, 961
geochemistry, Poland, copper shale, 372
Haiti, geochemistry, Memé, 541
India, Khetri copper belt, mineragraphy, 277
India, Sikkim, Rangpo, 682
Japan, Akita, Kuroko deposits, 698
Maine, Eastport, geochemistry, 188
Mexico, Fresnillo, 701
Mexico, Mapimi district, 701
Mexico, metallogenetic provinces, 700
Michigan, Copper Harbor Conglomerate, 190, 294
Montana, Butte, 884
Nevada, Battle Mountain, occurrence, 90
Nevada, supergene, altered plagioclase, 401
New Mexico, Lincoln County, 943
New Mexico, Red River district, 553
New Mexico, Santa Rita, 37
Norway, Skorovass, exploration guides, 217
Pakistan, Chagai District, occurrence, 51
Philippines, exploration, 87
Poland, Fore-Sudetian, 372
Red Sea, occurrence, 704
Utah, Bingham, absolute age, 612
Vermont, exploration, 89
Zambia, Mufulira, 207
Copper Canyon, Nevada:
supergene processes, copper in altered plagioclase, 401
Copper mineralization in the upper part of the Copper Harbor Conglomerate at White Pine, Michigan (discussion), 190–191, 294
Cornelia pluton, Ajo, Arizona, The (Wadsworth), 101–115
Cornelius, K. D., reply to discussion of paper by, 292, 295
Cornwall, H. R., with Hewett, D. F., and Erd, R. C., *Hypogene veins of gibbsite, pyrolusite, and lithiophorite in Nye County, Nevada*, 360–371
Correction to article:
An algal biostrome fringe and associated mineralization at Mufulira, Zambia (Paltridge, v. 63, no. 3, 207–216), 988
Ore microscopic study of copper ore from Kolihan, Rajasthan—India (Rao and Rao, v. 63, no. 3, 277–287), 858
Supergene copper concentration in altered plagioclase feldspar, Copper Canyon, Nevada (Clement, v. 63, no. 4, 401–408), 714
Cortez area, Nevada:
gold, 89

1968

SOCIETY OF ECONOMIC GEOLOGISTS

THE PUBLICATIONS OF WHICH CONSTITUTE A PART OF THIS JOURNAL

OFFICERS FOR 1968

CHARLES A. ANDERSON, *President*
345 Middlefield Road, Menlo Park, California 94025

WILLIAM H. CALLAHAN, *Vice President*
160 Front Street, New York, New York 10038

FREDERICK S. TURNEAURE, *President-Elect*

ROBERT A. LAURENCE, *Secretary*
P. O. Box 1549, Knoxville, Tennessee 37901

ROBERT M. GROGAN, *Treasurer*
Development Dept., Room 6015, DuPont Building
Wilmington, Delaware 19898

EUGENE N. CAMERON, *Vice President-Elect*

Councilors

to March 1969	*to March 1970*	*to March 1971*
DELOS E. FLINT	F. STUART MILLER	PAUL AVERITT
ALAN T. BRODERICK	VINCENT E. MCKELVEY	SIEGFRIED MUESSIG
EUGENE CALLAGHAN	HOMER F. ZURBRIGG	JOHN B. PATTON

President; Vice President; President-Elect; CHARLES H. BEHRE, JR., *Past President;*
GEORGES ORDOÑEZ, *Past Vice President; Secretary; Treasurer*

Regional Vice Presidents

T. W. GEVERS, Africa
JACK M. RAYNER, Australia
CARLOS F. RUIZ, South America
CHIKAO NISHIWAKI, Asia
ALBERT MAUCHER, Europe
CHARLES H. SMITH, North America

Executive Committee
President
Vice President
Secretary
Treasurer
President-Elect
Past President

Finance Committee
F. STUART MILLER, *Chairman*
FRANCIS CAMERON
LYMAN H. HART
GEORGE E. KRUGER
R. M. GROGAN, *ex-officio*

Program Committee
SIEGFRIED MUESSIG, *Chairman*
ROBERT M. DREYER
KENYON RICHARD

Publications Committee
PAUL K. SIMS, *Chairman* } *to March 1969*
V. E. MCKELVEY
D. L. EVERHART } *to March 1970*
W. C. KELLY
PAUL B. BARTON } *to March 1971*
E. L. OHLE

Nominating Committee
PAUL K. SIMS, *Chairman*
WESTON BOURRET
THOMAS L. KESLER

Admissions Committee
ULRICH B. PETERSEN, *Chairman*
NEIL CAMPBELL
G. DONALD EMIGH
DELOS E. FLINT
C. P. JENNEY

Program Policy Committee
GEORGES ORDOÑEZ, *Chairman*
WM. H. CALLAHAN
EUGENE N. CAMERON
ROBERT M. DREYER
C. O. ENSIGN, JR.
R. E. FOLINSBEE
S. E. JEROME
SIEGFRIED MUESSIG
BRIAN J. SKINNER
ROBERT A. LAURENCE, *ex-officio*

Auditing Committee
JACK A. JAMES, *Chairman*
ROBERT B. HOY

Committee on Committees
J. O. KALLIOKOSKI, *Chairman*
R. B. FULTON, III
P. W. GUILD

Research Committee

to March 1969	*to March 1970*	*to March 1971*
A. T. BRODERICK, *Chairman*	H. L. BARNES	A. A. BRANT
K. O. KRAUSKOPF	D. E. FLINT	P. S. HAAPALA
GEORGE TUNELL	R. S. CANNON, JR.	T. P. THAYER

Committee on Perpetuation of Society

to March 1969	*to March 1970*	*to March 1971*
PRIESTLEY TOULMIN, III	JOHN PAYNE, JR.	OLAF N. ROVE

Membership Secretary: CARL E. DUTTON, 222 Science Hall, Madison, Wisconsin 53706

Representative to American Geological Institute

to March 1969	*to March 1970*
ROBERT A. MOEHLMAN	VINCENT E. MCKELVEY

Liaison Representative to the A.G.I. Translations Committee: B. F. LEONARD, III

Representative to National Research Council to March 1970: JOHN D. RIDGE

Representative to International Critical Tables of N.R.C.—N.A.S.: EDWIN W. ROEDDER

CONTENTS OF VOLUME 63

Number 1

Intrusive Breccias Associated with Ore, Warren (Bisbee) Mining District, Arizona....*D. G. Bryant* 1
Geochemical Evolution of Zoned Pegmatites of Argentina....*A. O. Herrera* 13
Geochronology of the Emplacement, Enrichment, and Preservation of Arizona Porphyry Copper Deposits....*D. E. Livingston, R. L. Mauger, and P. E. Damon* 30
Hypogene Texture and Mineral Zoning in a Copper-Bearing Granodiorite Porphyry Stock, Santa Rita, New Mexico....*R. L. Nielsen* 37
Exploration Possibilities in the Western Chagai District, West Pakistan....*R. G. Schmidt* 51
The Distribution of Manganese in the Animikian Iron Formations of Minnesota....*H. Lepp* 61
Rapid Determination of Uranium in Geochemical Samples by Paper Chromatography..*J. Plamondon* 76

Scientific Communications:

Calculation of Chemical Composition of Composite Samples of Coal from Maceral Composition *N. N. Chatterjee, D. Chandra, and T. K. Ghosh* 80
On the Concept of Metallogenic Province as Applied to the Philippines....*G. G. Santos* 83

Discussions:

Geochemical Field Kit for Trace Amounts of Molybdenum....*H. Bloom* 85
Two Varieties of Pyrite from the Basal Reef of the Witwatersrand System....*S. H. U. Bowie* 85
Origin of the Bedrock Values of Placer Deposits....*C. B. Gunn* 86

Society of Economic Geologists:

Award of Penrose Medal.... 87
Economic Geologists Dinner, Praha, Czechoslovakia, August, 1968.... 87
Abstracts of Papers to be Presented at the New York Meeting of the Society in February, 1968.. 87

Reviews:

Short Reviews of Recent Russian Books....*C. F. Davidson* 92
Geochemical Prospecting in Fennoscandia (A. Kvalheim, Ed.).... 93
Coal Mining Geology (I. Williamson).... 94
Cyclic Sedimentation (Developments in Sedimentology, 10) (P. McL. D. Duff, A. Hallam and E. K. Walton).... 94
Appalachian Tectonics (T. H. Clark, Ed.).... 94
Books Received....*E. Julius Dasch, Radomir Petrović, and Donald J. Bachinski* 94

Postdoctoral Research Associates in Geological Sciences.... 98

Scientific Notes and News.... 99

Charles F. Davidson—In Memoriam.... 100

Number 2

The Cornelia Pluton, Ajo, Arizona....*W. B. Wadsworth* 101
Newly Observed Ore-Minerals from the Basal Reef in the Orange Free State Goldfield in South Africa....*R. Saager* 116
Potash-Bearing Evaporites in the Danakil Area, Ethiopia....*J. G. Holwerda and R. W. Hutchinson* 124
Titanium Occurrence and Distribution in the Magnetite-Hematite Deposit at Benson Mines, New York....*R. D. Hagni* 151
Sulfide Mineralization Associated with Migmatization in the Southeastern Part of the Singhbhum Shear Zone, Bihar, India....*A. K. Talapatra* 156
Potassium-Argon Dates from Toquepala and Michiquillay, Peru.... *A. W. Laughlin, P. E. Daman, and B. N. Watson* 166
The Wilbur Springs Quicksilver District (California) Example of a Study of Hydrothermal Processes by Combining Field Geology and Theoretical Geochemistry....*A. N. Moiseyev* 169
A Study on the Optical and Chemical Characters of Some Coals Carbonized in the Laboratory *T. K. Ghosh* 182

Scientific Communications:
A New True Thickness Formula Based on the Apparent Dip ... *George Addie* 188
Syngenetic Sulfides in Sedimens—Additional Field Evidence ... *Robert Greenwood* 188

Discussions:
Copper Mineralization in the Upper Part of the Copper Harbor Conglomerate at White Pine, Michigan ... *E. L. Ohle* 190
Origin of the Bedrock Values of Placer Deposits ... *Ralph Tuck* 191
Trace Ferrides in the Magnetite Ores of the Mount Hope Mine and the New Jersey Highlands ... *L. G. Collins* 193
Reflectivity Measurements on Molybdenite—A Reply ... *D. S. Singh* 195

Society of Economic Geologists:
Dinner for Economic Geologists XXIII Congress, Prague ... 196
Coal Geology Division of GSA Field Trip, November, 1968 ... 196
SEG Symposium at University of Tennessee, March 27–29, 1969 ... 196

Reviews:
Geology of Mineral Deposits, Vol. 7, No. 1, 1965 ... *E. A. Alexandrov* 197
Applied Ore Microscopy (H. Freund, Ed.) ... *J. Kalliokoski* 200
Anatomy of the Western Phosphate Field (L. A. Hale, Ed.) ... *L. T. Grose* 202
Materials (D. Flanagan, Ed.) ... 203
Books Received ... *E. Julius Dasch, Radomir Petrović, and Donald J. Bachinski* 203

Scientific Notes and News ... 206

Number 3

An Algal Biostrome Fringe and Associated Mineralization at Mufulira, Zambia ... *I. M. Paltridge* 207
Distribution of Major Elements in the Wall Rocks and the Silicate Fraction of the Skorovass Pyrite Deposit, Grong Area, Norway ... *Tore Gjelsvik* 217
The O^{18} Content of Water in Primary Fluid Inclusions from Providencia, North-Central Mexico ... *R. O. Rye and J. R. O'Neil* 232
Uranium Mineralization in the Burro Mountains, New Mexico ... *Elliot Gillerman* 239
The Geology of the Carahuacra Mine, Peru ... *W. A. Lyons* 247
The Formation of Sedimentary Iron Minerals ... *C. D. Curtis and D. A. Spears* 257
Evidence for a Modified Placer Origin for Auriferous Conglomerates, Canavieriras Mine, Jacobina, Brazil ... *W. H. Gross* 271
Ore Microscopic Study of Copper Ore from Kolihan, Rajasthan—India ... *N. K. Rao and G. V. U. Rao* 277

Scientific Communications:
Radon-222 Emanations from a Uranium Deposit ... *Willy Dyck* 288
Synthesis of Two New Silver Sulfosalts ... *H. T. Hall* 289
Rapid Determination of Molybdenum in Geochemical Samples Using Dithiol ... *N. J. Marshall* 291

Discussions:
Breccia Pipe Mineralization at Mount Morgan—A Reply ... *K. D. Cornelius* 292
Copper Mineralization in the Upper Part of the Copper Harbor Conglomerate at White Pine, Michigan ... *E. A. Brecke* 294
Fossil Gossans ... *Leonid Bryner* 294
Breccia Pipe Associated with Epigenetic Mineralization, Mount Morgan, Queensland—A Reply ... *K. D. Cornelius* 295

Society of Economic Geologists:
"The Geochemistry of Hydrothermal Ore Deposits" and The Society of Economic Geologists Foundation, Inc. ... *C. H. Behre, Jr.* 296
Lindgren Citation Award, 1967 ... 296
Meeting in Mexico City ... 296

Reviews:
Geologie Přehrad na Vltavě (Záruba, Zajíc et al) ..... *J. C. Doucha* 297
Developments in Sedimentology: Diagenesis in Sediments (Larsen and Chilingar, Editors) ... 297
Geological Survey Research in 1967, Chapters D and A 297
Layered Igneous Rocks (Wager and Brown) 297
Selected Works: Granites and Migmatites (Sederholm) 298
Books Received ..... *E. Julius Dasch, Radomir Petrović, and Donald J. Bachinski* 298

Scientific Notes and News 300

Number 4

Environments of Generation of Some Base-Metal Ore Deposits ..... *Donald E. White* 301
Environment of Ore Deposition at the Mex-Tex Deposits, Hansonburg District, New Mexico, from Studies of Fluid Inclusions ..... *E. Roedder, A. V. Heyl, and J. P. Creel* 336
A Reconnaissance Study of Some Western Canadian Lead-Zinc Deposits *T. L. Evans, F. A. Campbell, and H. R. Krouse* 349
Hypogene Veins of Gibbsite, Pyrolusite, and Lithiophorite in Nye County, Nevada *D. F. Hewett, H. R. Cornwall, and R. C. Erd* 360
Evolution of the Fore-Sudetian Copper Deposit ..... *J. Oberc and J. Serkies* 372
The Sources of Ore-Forming Material ..... *V. I. Smirnov* 380
Glaciation as a Possible Cause of Mineral Deposition ..... *L. D. McGinnis* 390
Supergene Copper Concentration in Altered Plagioclase Feldspar, Copper Canyon, Nevada *Stephen C. Clement* 401
Application of a Selective Simulation and Sampling Technique to the Interpretation of Stream Sediment Copper Anomalies near South Mountain, Pennsylvania ..... *Eric C. Dahlberg* 409
The Synthesis of Ferroselite from an Aqueous Solution at Low Temperature .... *C. Gerald Warren* 418

Scientific Communications:
Use of Mercurous Chloride to Recover Trace Amounts of Gold from Waters *E. A. Jenne, T. T. Chao, and L. M. Heppting* 402
Speculations on the Source of Zinc, Cadmium, Lead, Copper and Sulfur in Mississippi Valley and Similar Types of Lead-Zinc Deposits ..... *R. W. Boyle and J. J. Lynch* 421

Discussions:
Geochemical Prospecting—Use of A Horizon in Soil Surveys ..... *R. W. Boyle and A. S. Dass* 423
Trend Surface Analysis of Trace Chemical Data, Park City District, Utah ... *Robert G. Garrett* 423
The Geology of the Zawar Lead-Zinc Mine—A Reply ..... *Asoke Mookherjee* 425

Society of Economic Geologists:
Report of the Program Policy Committee for 1967 428
Report of the Nominating Committee 428
Annual Report of the Secretary—1967 429
Report of Treasurer—Fiscal Year 1967 431

Reviews:
Diapirism and Diapirs (Jules Braunstein & G. D. O'Brien, Eds.) 435
Metallogenic Provinces and Metallogenic Epochs (Yu. A. Bilibin) 435
Elements of Mineralogy (Brian Mason & L. G. Berry) 435
Geochemie der Pyrite einiger Lagerstatten der Tschechoslowakei (B. Cambel and Jan Jarkovsky) 435
Reviewers of Manuscripts 436
Books Received ..... *E. Julius Dasch, Radomir Petrović, and Donald J. Bachinski* 436

Scientific Notes and News 438

Number 5

Temperature, Salinity, and Origin of the Ore-Forming Fluids at Pine Point, Northwest Territories, Canada, from Fluid Inclusion Studies ..... *Edwin Roedder* 439
The Noncolloidal Origin of "Colloform" Textures in Sphalerite Ores ..... *Edwin Roedder* 451

Wall Rock Alteration at the Boliden Deposit, Sweden ..... *C. A. Nilsson* 472
The Genesis of Diamond Deposits ..... *George C. Kennedy, and Bert E. Nordlie* 495
Recent Researches on Kimberlite and Diamond Geology ..... *J. B. Dawson* 504
Mineralogy and Origin of the Silverfields Silver Deposit in the Cobalt Area, Ontario .. *William Petruk* 512
Foci of Mantle Disturbance in Southern Africa and Their Economic Significance
Richard N. Crockett and Robert Mason 532
Contact-Localized Ore Formation at the Memé Mine, Haiti ..... *Stephen E. Kesler* 541
Structural Controls in the Red River District, New Mexico ..... *K. F. Clark* 553

Scientific Communication:
Economic Geology and Geochemistry ..... *J. Kalliokoski* 567

Discussions:
The A Horizon in Soil Surveys; Geochemical Kit for Trace Amounts of Molybdenum
Guy Lapointe 572
Potash-Bearing Evaporites, Danakil Area, Ethiopia ..... *P. A. Mohr* 572
The Wilbur Springs Quicksilver District ..... *Peter Joralemon* 573
Sulfur Isotope Ratios in Co-existing Galena and Sphalerite from Broken Hill, New South Wales —A Correction ..... *R. L. Stanton and T. A. Rafter* 574

Reviews:
Geology of Ore Deposits, Vol. 7, No. 2, 1965 ..... *E. A. Alexandrov* 575
Geology of Ore Deposits, Vol. 7, No. 3, 1965 ..... *E. A. Alexandrov* 578
A Coast to Coast Tectonic Study of the United States, No. 1 (V. H. McNutt Committee) 582
Books Received ..... *E. Julius Dasch, Radomir Petrović, and Donald J. Bachinski* 582

Scientific Notes and News 584

Number 6

Minor Epigenetic, Diagenetic, and Syngenetic Sulfide, Fluorite, and Barite Occurrences in the Central United States ..... *Allen V. Heyl* 585
Layered Pegmatites, Southern Wind River Mountains, Fremont County, Wyoming
Paul Dean Proctor and Hasan A. El-Etr 595
Chronology of Intrusion, Volcanism, and Ore Deposition at Bingham, Utah
W. J. Moore, M. A. Lanphere and J. D. Obradovich 612
Hydrothermal Transport and Deposition of Gold *Harold C. Helgeson and Robert M. Garrels* 622
Mineralogy of Sulfides from Certain Hawaiian Basalts
G. A. Desborough, A. T. Anderson and T. L. Wright 636
Geology of the Kalamazoo Orebody, San Manuel District, Arizona ..... *J. David Lowell* 645
Distribution of Minor Elements in Ore and Host Rock, Illinois-Kentucky Fluorite District and Upper Mississippi Valley Zinc-Lead District ..... *Wayne E. Hall and Allen V. Heyl* 655
A "Lattice Defect-Free Energy" Approach to Replacement Processes in Ore Deposition
David J. McDougall 671
Quantitative Analysis of Polymetallic Orebody Zoning at Rangpo, Sikkim ..... *A. K. Ghosh* 682
Determining Fineness Variation Characteristics in Gold Ores by Reflectometry ..... *Hugh V. Eales* 688

Scientific Communications:
Proposed Terminology for Hydrothermal Breccias and Conglomerates ..... *Leonid Bryner* 926
Microhardness of Dolomite ..... *D. K. Paul and S. S. Saha* 693

Discussions:
Sulfide Mineralization in the Singhbhum Shear Zone ..... *G. A. Schnellmann* 694
Calaverite at Vatukoula, Fiji ..... *Donald Lane Forsythe* 694
Geochemical Field Kit for the Determination of Trace Amounts of Molybdenum .. *John Barakso* 695

Society of Economic Geologists:
Waldemar Lindgren Citation Award 697
Program and Abstracts of Papers to be Presented at the Mexico City Meeting, November 1968. 697

Reviews:
Geology of Ore Deposits, Vol. 7, No. 4, 1965 ... *E. A. Alexandrov* 705
Physiology and Geochemical Activity of Thiobacilli (G. A. Sokolova and G. I. Karavaiko) *Robert L. Starkey* 708
Microbiological Processes in the Formation of Sulfur Deposits (M. V. Ivanov) *Robert L. Starkey* 708
Principles of Geology, 3rd Edition (Gilluly, Waters, and Woodford) ... 708
Regional Geology of Czechoslovakia. Part II, The West Carpathians (Mahel and Buday, Eds.) 709
Books Received ... *E. Julius Dasch, Radomir Petrović, and Donald J. Bachinski* 709

Scientific Notes and News ... 712

Correction to Article, "Supergene Copper Concentration in Altered Plagioclase Feldspar, Copper Canyon, Nevada" by *Stephen C. Clement* in Volume 63, No. 4, pages 401 to 408 ... 714

Number 7

Experimental Evidence that Fluid Inclusions do not Leak ... *Edwin Roedder and Brian J. Skinner* 715
Strontium Isotopic Compositions of Gangue Minerals from Hydrothermal Vein Deposits *R. H. Reesman* 731
Uranium Deposits in the Jackpile Sandstone, New Mexico ... *J. Thomas Nash* 737
Relation of Fault Trends and Mineralization, Eastern Great Basin, Utah ... *Wm. Lee Stokes* 751
Mineralogy of the Difference Genetic Types of Manganese Deposits ... *Supriya Roy* 760
Selection of Drilling Targets from Geochemical Data in the Southwest Wisconsin Zinc Area *J. DeGeoffroy, S. M. Wu, and R. W. Heins* 787
A Lead Isotope Study of Galenas and Selected Feldspars from Mining Districts in Utah *J. S. Stacey, R. E. Zartman, and I. T. NKomo* 796
The Jaspilite Iron Ores of Australia ... *John C. Liddy* 815
Structural Factors in Metasomatism Related to Endogenic Mineral Deposits of Middle Asia and the Urals ... *Yu. G. Safanov and V. F. Chernyshev* 822
Composition of Sphalerite from Quemont Mine, Quebec ... *F. A. Campbell and K. L. Williams* 824
Sphalerite-Pyrrhotite-Pyrite Equilibria—A Re-evaluation ... *Marco T. Einaudi* 832

Scientific Communications:
Fluid Inclusion Research—Proceedings of COFFI ... *Edwin Roedder* 835
Fahlbands, Sulfide Schists, and Ore Deposition ... *R. W. Boyle* 835
The Age of Radioactive Mineralization of Placer Deposits of Kerala (Travancore), India *D. K. Ganguli and I. K. Kaul* 838

Discussions:
Subsolidus Phase Relations in the ZnS-FeS-FeS_2 System *L. V. Chernyshev and V. N. Anfilogov* 841
Origin of Bedrock Values of Placer Deposits ... *Leendert Krook* 844
Environment of Generation of Some Base Metal Ore Deposits ... *Ira B. Joralemon* 846
Two Varieties of Pyrite from the Basal Reef of the Witwatersrand System *R. Saager and P. Mihálik* 847

Society of Economic Geologists:
Report of the President, Society Year 1967 ... 848

Reviews:
Wirtschaftsgeologie der Erze (Resource Geology of Ores), (S. Jankovic) *Chas. H. Behre, Jr* ... 850
Geology of Ore Deposits, Vol. 7, No. 5, 1965 ... *E. A. Alexandrov* 850
Sodium Chloride (D. W. Kaufmann, Ed.) ... 854
A Technical Conference on Tin: Two Volumes ... 854
Saline Deposits (R. B. Matlox, Ed.) ... 854
Mineral Specimens (C. J. Morrissey, Ed.) ... 855
Books Received ... *E. Julius Dasch, Radomir Petrović, and Donald J. Bachinski* 855

Scientific Notes and News ... 857

CORRECTIONS ... 858

Number 8

Uranium Emplacement at Garnet Ridge, Arizona ..... *Anna T. Gavasci and Paul F. Kerr* 859
Borax Solution at Kramer, California ..... *Ward C. Smith* 877
Lead and Strontium Isotope Studies of the Boulder Batholith, Southwestern Montana
B. R. Doe, R. I. Tilling, C. E. Hedge, and M. R. Klepper 884
A Phenomenological Study of Grain Boundary Migration in Some Common Sulfides
R. L. Stanton and Helen Gorman 907
Origin of the Magnesite Deposits of Southern Pithoragarh, Kumaun Himalaya, India .. *K. S. Valdiya* 924
The Significance of Na/K and Cl/SO_4 Ratios in Fluid Inclusions and Subsurface Waters, with Respect to the Genesis of Mississippi Valley-type Ore Deposits ..... *F. J. Sawkins* 935
Hydrothermal Alteration and Mineralization of the Rialto Stock, Lincoln County, New Mexico
Tommy B. Thompson 943
Opaque Oxide Minerals of some Diabase-Granophyre Associations in Pennsylvania
A. Davidson and P. J. Wyllie 950
Origin of Native Copper and Hematite in the Karmutsen Group, Vancouver Island, B. C.
